

Building Specifications and Information

The Hatteras Village Community Building is a smaller event area with many amenities. The main floor of the building is a 40 feet long and 26 feet wide carpeted area. Doors lead to another, smaller room and a hallway to the bathrooms. There are two bathrooms, each with two stalls and double sinks. The spacious kitchen has double stainless sinks and a commercial double door refrigerator and freezer. There is a commercial gas stove and a salamander. There are also two more stainless sinks and a prep sink. In the kitchen you will find basic food preparation equipment and serving/catering equipment. Outside the building, there is a covered veranda with seating and a newly renovated gated playground.
